THE GREAT VICTORY.

The battle has been fought and won. What the October elections foreshadowed, is realized in the returns of yesterday's great battle. ULYSSES S. GRANT has been elected President, and SCHUYLER COLFAX Vice President of the United States for four years, from the Fourth of March next. With them and a Republican Congress already elected, making and administering laws, THE COUNTRY WILL HAVE PEACE. We have seen the last of Rebellion. The day is certain now when Treason will rule no part of this land; when every citizen will receive protection in every right; free speech guaranteed and crime will be punished.

The magnitude of our victory cannot be exaggerated. It has been won in the name of Patriotism and Truth, Freedom and Progress, and it secures for the Nation an unexampled career of Peace and Prosperity.

It has been a hard fought battle, as was that which crushed the first Rebellion. It is a victory over a Rebellion not less organized and determined than that was; a Rebellion that strove to achieve its purpose through the ballot box, aided by every appliance of fraud and corruption which desperation could invent.

At the present writing it seems probable that EVERY NORTHERN STATE HAS VOTED FOR GRANT AND COLFAX. It is only in those States which for four years waged bloody warfare to destroy the Government, and where yet is kept alive the hate for Freedom and Progress which instigated the attempt and the hellish deeds that formed a part of it, that SEYMOUR and BLAIR have found more friends than enemies. It was only where to be loyal was to court death in every horrid form, where free speech was suppressed and the old treason had become intensified into every crime that the evil spirit could invent, and freemen not given over to it could not vote, that the Democratic cause has flourished.

All the New England States have been swept. The Middle States have risen up in their strength, and the Western and Northwestern States have come forth to command peace and proclaim that there shall be no more Rebellions.

Of the South our returns do not permit us to speak with any degree of [illegible]

NEW YORK.

NEW YORK, November 3.—The State, compared with the vote of 1866, when Fenton (Republican) had 13,800 majority: Suffolk county, three districts give a Democratic gain of 5. Rockland county, four districts give a Democratic gain of 327. Putnam county, two districts give a Republican gain of 69. Dutchess county, 1 district gives a Democratic gain of 8. Tioga county, one district gives a Republican gain of 34. Jefferson county, one district gives a Democratic gain of 1.

The election in this city and Brooklyn passed off quietly up to the closing of the polls, with the exception of small fights and disturbances at two or three precincts, which were promptly and easily quelled by the police, and the offenders arrested. Upon the application of Governor Fenton, yesterday, Secretary Schofield instructed the Commanding General of the department to place United States troops at the Governor's disposal in case any necessity should arise.

A number of arrests were made in both cities during the day for illegal voting, and the arrested parties committed or held to answer. Voting was very lively during the first part of the day, at many precincts an average of four votes per minute being cast.

Swann, Democratic, is elected in the Third District by 7,353 majority. The Fourth District is still in doubt, with the Republicans hopeful. Our gain in Baltimore is 4,206 over last year. Small Republican gains are reported in all sections of the State.

BALTIMORE, November 3, 3 P. M.—The election is progressing very quietly. A heavy vote is polled in the city and county.

Baltimore city gives Grant 9,052, Seymour 21,593. In the Third district, for Congress, Swann has 12,961, King 5,608. In the Fourth district the returns show large Republican gains. In Washington, Frederick, Carroll, and Allegheny counties the Congressional contest is close.

Washington county—Seven districts show a Republican gain of 283.

Baltimore city gives a Democratic majority of 12,565.

SECOND DISPATCH.

WASHINGTON, November 4, 1868.

Returns from the Fourth Maryland District are not complete, but enough to show it has gone Democratic. There is great rejoicing here among the Republicans over the general result in the country. The Democrats are terribly cut up. They have lost heavily on bets made early in the evening.

RHODE ISLAND.

PROVIDENCE, November 3.—Rhode Island will probably give 5,000 majority for Grant.

PROVIDENCE, November 3.—Returns from the entire State except four towns give Grant 10,940, Seymour 5,470. Further returns will make Grant's majority about 6,000. Thomas A. Jenckes and Nathan F. Special Dispatch to the Pittsburgh Commercial.

DETROIT, MICH., November 3, 1868.

Michigan at least twenty-five thousand majority for Grant. Large Republican gains in Detroit.

I.

DETROIT, November 3.—Scattering returns so far from all parts of the State show considerable Republican gains over the vote of 1866. The State will probably give Grant 20,000 majority. In the first District for Congress Mills, Democratic, runs ahead of his ticket, will have 1,500 majority in this county, and will reduce Beaman's majority to about 1,500. Returns from three wards of Detroit City show small Republican gains.

The Chairman of the State Central Committee says scattering returns show Republican gains over 1866. The Republican majority in the State is probably 25,000.

The returns show Republican gains, and that the State will give about 30,000 Republican majority.

Both parties claim the Congressman in the St. Louis District, but the chances are in favor of Wells. The Constitutional amendment for negro suffrage will be defeated in this county.

ST. LOUIS, November 3.—Grant's majority in Kansas is estimated at 12,000.

FOR FURTHER ELECTION RETURNS SEE FOURTH PAGE.

NOBLE ALLEGHENY COUNTY.

The county of Allegheny has again covered herself with glory. In October her majority was but fifty less than nine thousand. Yesterday she gave GRANT and COLFAX but little under eleven thousand. The gain is uniform in the city and country districts, and some part of it is to be accounted for by the fact that Democrats voted for GRANT. Our majority is probably the largest in proportion to the vote cast of any in the country.

The Daily Commercial.

WEDNESDAY, NOVEMBER 4, 1868.

The Workingwomen's Association of New York have adopted a sensible platform. As a specimen of the views set forth in it, we present the greater portion of the fourth plank, that our readers may judge of the progress made by the advocates of woman's rights:

[illegible]

The foregoing embodies more practical good sense than all the resolutions and "whereas's" that ever emanated from all the Women's Rights Associations during the last twenty-five years. By carrying out this single resolution, the working women of the United States will secure their just rights without experiencing any difficulty whatever.

OVERDOING THE THING.

The over-zealous labors of some people, and their extreme officiousness frequently defeat the object they are so anxious to attain. Hereafter we must class Mayor Hoffman, of New York, among this class of too ardent workers. He evidently forgets the real meaning of the saying "the laborer is worthy of his hire." Mayor Hoffman has been hired by the Democracy of New York City to do a certain amount of work, for which he has already received a "consideration," with the promise of future reward. He has pledged himself to do a certain amount of work for a certain price. This is a perfectly proper arrangement, viewed from a political standpoint. Therefore, no Democrat could do aught but commend the zeal so long as it is confined within legitimate bounds, or directed in such a manner as to redound to the advantage of modern Democracy. But he must be careful not to overdo his work, for there is such a thing as damaging even the Democracy. In short, he may be guilty of almost any practice privately to subserve the ends of those who placed him in the Chief Magistrate's chair, but his public actions must be those of an impartial, cautious conservator of the public peace. Unfortunately for the Democracy of New York, their Mayor and candidate for Governor has permitted his proposed reward to lead him an extraordinary length in his efforts to prove himself worthy of his hire. In other words, he either forgets that he is Mayor of New York, or has conceived the notion that the Democracy of New York constitute the entire populace. The proof of this assertion may be found in Mayor Hoffman's recent proclamation. Were anything wanting to prove the dependence the Democracy of New York placed in the recent naturalization frauds committed in that city, this proclamation supplies it. Says Mr. Hoffman, "Threats are made against naturalized citizens, and the authority of the Judges and the seal of the Supreme Court is defied." "The United States Marshal, a violent political partisan, has assumed to himself the duty of appointing swarms of special deputies to take their places at the polls, and to threaten and awe the electors of the State of New York. *It is the first time in the history of the country that United States authorities have attempted to interfere with free elections in the Empire State, and the act is attended with danger.*"

This remarkable language reminds us forcibly of the style of argument adopted by a gentleman who was yesterday consigned to his political grave, and who vigorously opposed the draft in the same State. But Mayor Hoffman evidently interprets a *free election* pretty much as we have been accustomed to interpret a *free fight*, in which he who hits oftenest and hardest is bound to win. New York elections bear a strong resemblance to free fights. What are the threats alluded to? Simply the expressed intention of the United States Government to arrest and punish parties guilty of violating the laws governing our elections. But Mayor Hoffman's idea of liberty is incompatible with justice or honesty. The mere attempt to prevent fraud in the city of New York "is attended with danger." We do not doubt it will be damaging to the Democracy, but if Mayor Hoffman would imply that it is dangerous to adopt every precaution to prevent fraud and violence, he will be rebuked by the reflecting portion of the American people, irrespective of party, in a signal manner. If we are apprised of riotous demonstrations in New York, we will not be surprised. This proclamation is an open and unblushing argument in favor of the system which has heretofore governed New York elections, [illegible] the laws, and winked at the most flagrant abuses. We have no doubt whatever Mayor Hoffman has injured himself and his party by issuing it.

We have alluded to this remarkable document solely because we think the time has arrived when those who undertake to discharge the duties devolving upon the magistrates of our great cities, should be reminded of their obligations to the *entire community, without regard to partisan or clique*. The moment they depart from this course, instead of preserving the public peace, they aid and abet all manner of injustice and lawlessness. The Mayor of a large city is responsible for the welfare of every individual in it, and he should be commended or condemned in proportion as he discharges or neglects his duties.

NEW GOLD FIELDS OF CHINA AND AFRICA.

If we can rely upon a tithe of the news brought by the foreign mail, the Eldorado of the world is to be found in Asia and Africa. The glowing details contained in the reports of those who have partially examined the new gold fields of China and Africa, will doubtless occasion a stampede among the gold seekers of the new world. Instead of a steady immigration from China to California, it is just possible that the wonderful accounts of the discoveries in Shantung will impel the Chinese in California in search of gold to make immediate preparation for scrambling back again, accompanied in their hegira by the floating population of this State. We have been cautious in giving credence to the marvelous stories descriptive of the new gold fields, but the confirmation of the important points, namely the actual discovery of gold at Bamangwato, in Africa, and at Shantung, in China, entitle the reports we have received to some consideration.

The gold fields in the Chefoo district extend over a wide region, but, while it appears to be widely distributed, there are several points which stand out prominent, according to the testimony of several scientific men who have examined the gold-field. The first of these is Kin-Kiss, about twenty-three miles S. E. from Laichow, latitude 37 degrees 10 minutes N., longitude 120 degrees E. and thirty-two miles N. E. of Ping-tu. Marvelous stories are told by the natives concerning the richness of the quartz and sand in the streams. [illegible]

[illegible] the interior for mining purposes, and the steps taken by the consuls at Shanghae representing six nations, who are busily engaged in looking out for the rights of their nationals, we are not at liberty to doubt the importance of the question which gives rise to these proceedings. The Taoutai of Shanghae, shortly after the discovery was noised about, sent a dispatch to the Treaty Consuls, notifying them that the opening of mines is strictly prohibited by Chinese law, and that the Chinese merchants are not permitted to work them. After giving in detail the provisions of the laws which are supposed to shield the new found treasures of Shantung, the Taoutai adds complacently, "And the Taoutai having received these laws, now writes to the Consul requesting him to examine the foregoing, and if any *wandering vagabonds* without means should repair to Yen-tai, the Taoutai hopes the Consul will immediately prevent him." From this it will appear that vagabond gold seekers will encounter serious difficulties in prospecting the China gold fields.

The latest news from the African gold fields, dated July 25th, is, if anything, more exciting than that from China. Previous reports are corroborated, and detailed statements furnished representing the African Eldorado equal, if not superior, to the deposits in China. We must confess that we will confine ourselves to the smallest margin in accepting either. The African gold field embraces the greater portion of the Shashi district, but a "canny" Scotchman named Black, who is familiar with the country, and the Rev. Mr. McKenzie, a missionary, asserted that not only the Tatin, but also the Ramakhoban are as rich gold fields as the Shashi district. The Tatin and Ramakhoban are affluents of the Shashi. The samples sent from these districts by the "canny" Scotchman (Mr. McKenzie is also Scotch,) were sufficient to create the most intense "fever" at the Cape. The Chief of the Bamangwato has offered to cede the gold district governed by him to the English government for a consideration, and negotiations are now pending.

The specimens brought to the Cape, and obtained by Mr. McKenzie, are two pieces of quartz richly crystallized, richly, very richly studded with gold, having solid pieces, some larger even than a pin's head, imbedded in the stone. Other specimens furnished Sir Parker Woodhouse, and by him sent to England, were still richer than those placed on exhibition at the Cape. An old miner familiar with the California and Australian gold fields, in a letter to the Transvaal *Argus*, states that when he began working at the mines of the Ramakhoban he stood looking at the spot from whence he obtained the first piece of quartz, which he declared excelled anything he ever beheld.

The Natal *Mercury* commenting on the new discoveries argues that the immediate effects of these astounding discoveries will eclipse the most wonderful invention of human genius. It foresees the rush which will take place, and prophesies extraordinary results.

An authority says:

> [illegible]

These dreams, bright and unreal though they may appear to us who are accustomed to look upon Africa as forever given over to barbarism, may possibly be fulfilled. At least no one can question the fact that the love of gold is a mighty influence in the world.

QUAKERS IN COURT.

The Separation in the Ohio Yearly Meeting—A Further Statement of Facts.

Having read the statement given by "Ro-vine" in the COMMERCIAL in regard to the Friends of Ohio yearly meeting and their conflicting claims as developed in the proceedings of Court, I will say at the outset that very little objection can be made to it, that it seems to have been written by an impartial observer, and one who obtained a very correct view of the difficulty in its present position, and had nothing further been written in regard to the matter the editors of the COMMERCIAL would not have been troubled with this letter. But the correspondent from Winona places the question in a position that makes it necessary for some further statement of facts to be made in order that "the real merits of the controversy" may be clearly understood.

Your correspondent gives the subject a very wide range, indeed, when he places the foundation of the difficulty upon a doctrinal controversy between J. J. Gurney and John Wilbur. If that is the fact, how does the matter stand at present? Joseph John Gurney visited this country prior to 1840, was in attendance at Ohio yearly meeting as a minister of the gospel, and received from that meeting a minute stating that "he was sound in doctrine, and that his conduct had been such as becometh an ambassador of Christ." No one objected to this minute being granted him, so that there was no trouble about his "unsound views" at that time, and his principal doctrinal works had been printed prior to that time.

Whence then the difficulty? John Wilbur was disowned by his monthly meeting; he appealed to the quarterly meeting, but the disownment was confirmed; he then appealed to the yearly meeting, which confirmed the proceedings of the quarterly and monthly meetings; he had friends who opposed the action of the meetings in his case, others were disowned; their disownment was opposed, a separation took place in one quarterly meeting; thus two sets of representatives were sent to the quarterly meeting. At the opening of the yearly meeting two reports were presented purporting to come from the same quarterly meeting. Arrangements were made at the first sitting of the yearly meeting for deciding on the next day which report to receive, or, in other words, which quarterly meeting to recognize as the right one, and hence gave no direction for the nomination of a clerk at the commencement of the next sitting of the meeting.

The next day the regular clerk was in his seat, read the usual minutes and proceeded with the business in order. At this juncture, (if I am correctly informed,) the friends of John Wilbur named a clerk, and proceeded to transact business in one corner of the house, and after some time was devoted to making and reading minutes, adjourned and left the Yearly Meeting, and thus commenced a separation, claimed the title of New England Yearly Meeting, and addressed epistles to all other Yearly Meetings. Their claims were at once rejected by all except Ohio and Philadelphia. These two meetings had clerks who sympathized with John Wilbur and his friends, and having many supporters controlled the action of those meetings.

Now commenced the difficulty in the Ohio Yearly Meeting; the plaintiffs in this case wished to recognize the old regularly established New England Yearly Meeting, the defendants wished to recognize John Wilbur and his friends as being the New England Yearly Meeting, or at least to place them on an equality with the others, and recognize them as members of society, although they had, or might have been, disowned prior to or subsequent to the separation.

If the plea of the defendants is correct, and the party having the old clerk is the regular Yearly Meeting, why did they wish to recognize the Yearly Meeting set up by John Wilbur's friends, or to promote the establishment of such meetings by placing them on an equality with the large body in New England? It was this course of action that brought the Ohio Yearly Meeting into difficulty, and produced the separation; [illegible]

Now as to the property in dispute. A school has been kept up there since 1837. According to the present rules of conducting it, none but members of the society can be admitted as pupils. Thus all disowned persons and children, even after the disownment of their parents, can have no rights there, and the plaintiffs having been disowned by the defendants their interest in the property ceased in a few years entirely.

Fourteen years have passed since the separation. The plaintiffs were anxious to avoid a lawsuit, they asked a conference with the defendants; this was denied them. No official meeting could be had to bring about a settlement of the difficulty, although much importunity was used, and the subject repeatedly urged upon their consideration. It could be talked over by individuals in a friendly way, but they would not appoint a committee with authority to act in the premises. The plaintiffs failing in their efforts to bring about a conference, then proposed an arbitration, [illegible] but this offer was also rejected. Having failed in all their efforts to bring about an amicable adjustment of the difficulty, the plaintiffs were compelled either to institute legal proceedings or renounce all claims to the property. They have taken the former course, how wisely the future will determine.

I would again call the attention of the reader to the fact that it was the recognition of the seceders in New England as being members of society, and as such, on an equality with the rightly constituted authorities there [illegible] and divisions and subdivisions have been the consequence.

A separation occurred at Poplar Ridge, New York, [illegible]

Was it not well, then, for Ohio yearly meeting to remove a man from being its clerk who would in his official capacity foster or countenance such proceedings? J.

SMALL NOTES.

Lewis Cudderback, Clerk of the Supreme Court of Orange county, New York, assisted by his deputies, and a couple of Democratic lawyers, have been accused of perpetrating an immense practical joke, which took a political shape. The charges against these gentlemen allege, among other things, that they held court in the absence of the judges, the fun-loving clerk presiding, and proceeded to naturalize applicants at a swifter rate than the courts in New York City. It was a race against time, in which Cudderback won by a thousand or so. The ugliest part of this practical joke is the fact that the jokers charged a dollar apiece for the false certificates issued. The parties have all been arrested and will doubtless pay the penalty imposed upon great practical jokers.

The Democratic candidate for the Vice Presidency was escorted to the Catholic Institute in Jersey City last Saturday night by one hundred policemen of that city in full uniform bearing muskets with fixed bayonets. A New York paper says the display disgusted a good many Democrats, who could not understand why the man who talked so much about the display of military force permitted himself to be "guarded" in such an imposing manner.

The alarming frequency of fires in oil factories, warehouses and refineries in the country has at last caused the insurance companies of New York City to take action in the matter. The last "accident" in that city caused a loss of [illegible] of property and four lives. It is to be hoped the aid of the Government will be invoked to prevent, as far as human foresight can prevent, these frightful conflagrations occasioned by naptha and oil.

Mr. Henderson, a carrier of the New York *Sun*, has realized [illegible] out of the occupation. This statement is made by the *Sun*, and its truthfulness therefore will not be questioned. Mr. Henderson has carried the paper for upwards of seventeen years, and has not missed carrying his route a *single day*. Anything more regular than that it would be hard to conceive.

Another Eruption Described.

[Naples, October 22—Correspondence of the London Times.]

Another eruption of Vesuvius is a *fait accompli*, and, to quote the words of one of our journals, the mountain, like royalty, is honored with a daily bulletin. I call it another eruption; but, in truth, Vesuvius has not been quiet since last November, when it astonished visitors and alarmed the inhabitants of the immediate neighborhood by its brilliant displays. The same cone which was then in action has been more or less active ever since, but it is only since the beginning of this month that serious signs were observed of increasing action. [illegible]

The Civilizing Influence of Gunpowder.

Buckle, in his History of Civilization in England (p. 146), ascribes the entire intellectual progress of the past five centuries, to the changes wrought in the organization of society by the invention of gunpowder. He says on this subject:

Gunpowder, though a warlike contrivance, has in its results been eminently serviceable to the interests of peace. This important invention is said to have been made in the thirteenth century; but was not in common use until the fourteenth, or even until the beginning of the fifteenth century. Scarcely had it come into operation, when it worked a great change in the whole scheme and practice of war. Before this time, it was considered the duty of nearly every citizen to be prepared to enter the military service, for the purpose either of defending his own country or attacking others. Standing armies were entirely unknown; and in their place there existed a rude and barbarous militia, always ready for battle, and always unwilling to engage in those peaceful pursuits which were then universally despised. Nearly every man being a soldier, the military profession, as such, had no separate existence; or to speak more properly, the whole of Europe composed one great army, in which all other professions were merged. To this the only exception was the ecclesiastical profession; but even that was affected by the general tendency, and it was not at all uncommon to see large bodies of troops led to the field by bishops and abbots, to most of whom the arts of war were in those days perfectly familiar. At all events, between these two professions men were necessarily divided; the only avocations were war and theology; and if you refused to enter the church, you were bound to serve in the army. As a natural consequence, everything of real importance was altogether neglected. There were, indeed, many priests and many warriors, many sermons and many battles. But, on the other hand, there were neither trade, nor commerce, nor manufactures; there was no science, no literature; the useful arts were entirely unknown; and even the highest rank of society were unacquainted, not only with the most ordinary comforts, but with the commonest decencies of civilized life.

But as soon as gunpowder came into use, there was laid the foundation of a great change. According to the old system, a man had only to possess, what he generally inherited from his father, either a sword or a bow, and he was ready equipped for the field. According to the new system, new means were required, and the equipment became more costly and more difficult. First, there was the supply of gunpowder; then there was the possession of muskets, which were expensive weapons, and considered difficult to manage. Then, too, there were other contrivances to which gunpowder naturally gave rise, such as pistols, bombs, mortars, shells, mines, and the like. All these things, by increasing the complications of the military art, increased the necessity of discipline and practice; while at the same time, the change that was being effected in the ordinary weapons deprived the majority of men of the possibility of procuring them. To suit these altered circumstances, a new system was organized; and it was found advisable to train up bodies of men for the sole purpose of war, and to separate them as much as possible from those other employments in which formerly all soldiers were occasionally engaged. Thus it was that there arose standing armies; the first of which were formed in the middle of the fifteenth century, almost immediately after gunpowder was generally known. Thus, too, there arose the custom of employing mercenary troops, of which we find a few earlier instances, though the practice was not fully established until the latter part of the fourteenth century.

The importance of this movement was soon seen, by the change it effected in the classification of European society. The regular troops being, from their discipline, more serviceable against the enemy, and also more immediately under the control of the government, it naturally followed that, as their merits became understood, the old militia should fall, first into dispute, then be neglected, and then sensibly diminish. At the same time, this diminution in the number of undisciplined soldiers deprived the country of a part of its warlike resources, and therefore made it necessary to pay more attention to the disciplined ones, and to confine them more exclusively to their military duties. Thus it was that a division was first broadly established between the soldier and the civilian; and there arose a separate military profession, which, consisting of a comparatively small number of the total amount of citizens, left the remainder to settle in some other pursuit. In this way, immense bodies of men were gradually weaned from their old warlike habits, and being, as it were, thrown upon the world, had to turn to account their own energies and abilities. [illegible] nearly the whole of its consecutive steps. At present it is enough to say, that, taking a general view, this third, or intellectual class, first displayed an independent, though still a vague activity, in the fourteenth and fifteenth centuries; that in the sixteenth century, this activity assuming a distinct form, showed itself in religious outbreaks; that in the seventeenth century, its energy, becoming more practical, was turned against the abuses of government, and caused a series of rebellions, from which hardly any part of Europe escaped; and finally, that in the eighteenth and nineteenth centuries, it has extended its aim to every department of public and private life, diffusing education, teaching legislators, controlling kings, and above all, settling on a sure foundation that supremacy of public opinion, to which not only constitutional princes, but even the most despotic sovereigns, are now rendered strictly amenable.

GOLD BONDS

OF THE

Central Pacific

RAILROAD COMPANY.

A limited quantity of the *THIRTY YEAR SIX PER CENT. FIRST MORTGAGE BONDS* of the Central Pacific Railroad Company are offered to investors, for the present, at

103 and Accrued Interest, in Currency.

These Bonds are secured by a Trust Deed upon the most important link of the great Inter-Oceanic Railroad, two-thirds of which is already built, at a cost of nearly

ONE HUNDRED MILLIONS,

And which enjoys already a self-sustaining way traffic. The whole line of continuous rail between

New York and San Francisco

Will be completed by July next, when an immense through business will undoubtedly follow. More than 1,200 MILES of the distance between the Missouri River and the Pacific Ocean are already traversed by the locomotive; and it is probable that 300 miles additional will be completed during the current year. The future of this Line, therefore, is unusually promising. The

Central Pacific Railroad Co.

Receive from the United States Government about ten millions of acres of the

PUBLIC LANDS,

Situated along the line of their Road; also a Subsidy Loan of U. S. SIX PER CENT. BONDS, averaging $35,000 per mile, as fast as the sections of twenty miles are completed. They have received in addition, important GRANTS from the State and cities of California, worth more than $3,000,000 IN GOLD. The proceeds of these Lands, Bonds, Capital Stock, Subscriptions, Subventions and Net Earnings, are invested in the enterprise, to which is added the amount realized from First Mortgage Bonds. *THESE LATTER HAVE THE FIRST LIEN UPON THE WHOLE PROPERTY*, and are issued to the same amount only as the Government advances, or to the extent of about one-third the cost value of the Road, equipment, etc.

The Cash Resources are abundant for the completion of the work, and the *NET EARNINGS, FROM THE WAY TRAFFIC UPON 350 MILES NOW OPEN FOR BUSINESS, ARE MORE THAN DOUBLE THE CURRENT INTEREST LIABILITIES.*

☞ Besides a mileage upon all through business, this Road having the best lands for settlement, the most productive mines, the nearest markets, and being exempt from competition, will always command *LARGE REVENUES, WHICH ARE WHOLLY IN COIN.*

Two-thirds of the entire Loan is already marketed, and judging by past experience, the Loan will soon be closed. Investors who desire an unusually safe, reliable and profitable security, would do well to purchase before the Bonds are all taken.

☞ The Company reserve the right to advance the price at any time; but all orders actually *in transitu* at the time of any such advance will be filled at present price. At this time they pay more than eight per cent. upon the investment, and have, from *National and State taxes, guarantees superior to any other corporate securities now offered.*

The First Mortgage Bonds are of $1,000 each, with semi-annual Gold coupons attached, payable in July and January. Both

Interest and Principal are Made Expressly Payable in United States GOLD COIN.

The back interest from July 1st is charged only at the currency rates.

We receive all classes of Government Bonds, at their full market rates, in exchange for the Central Pacific Railroad Bonds, thus enabling the holders to realize from *5 TO 10 PER CENT. PROFIT*, and keep the principal of their investments equally secure, and receive the same rate of interest for a longer period.

Orders and inquiries will receive prompt attention. Information, Descriptive Pamphlets, etc., giving a full account of the Organization, Progress, Business and Prospects of the Enterprise furnished on application. Bonds sent by return Express at our cost.

Subscriptions Received by Banks and Bankers, Agents for the Loan, and by

☞ All descriptions of *GOVERNMENT SECURITIES BOUGHT, SOLD, OR EXCHANGED*, at our office and by Mail and Telegraph at *MARKET RATES.*

This Company, National in its character, offers, by reason of its Large Capital, Low Rates of Premium and New Tables, the most desirable means of insuring life yet presented to the public.

The rates of premium, being largely reduced, are made as favorable to the insurers as those of the best Mutual Companies, and avoid all the complications and uncertainties of Notes, Dividends and the misunderstandings which the latter are so apt to cause the Policy-Holders.

Several new and attractive tables are now presented which need only to be understood to prove acceptable to the public, such as the INCOME-PRODUCING POLICY and RETURN PREMIUM POLICY. In the former, the policy-holder not only secures a Life Insurance, payable at death, but will receive, if living, after a period of a few years, *an annual income equal to ten per cent. (10 per cent.) of the par of his policy.* In the latter, the Company agrees *to return to the assured the total amount of money he has paid in, in addition to the amount of his policy.*

The attention of persons contemplating insuring their lives or increasing the amount of insurance they already have, is called to the special advantages offered by the National Life Insurance Company.

Circulars, Pamphlets and full particulars given on application to the Branch Office of the Company in Philadelphia, or to its General Agents.

LOCAL AGENTS ARE WANTED in every City and Town; and applications from competent parties for such agencies, with suitable indorsement, should be addressed TO THE COMPANY'S GENERAL AGENTS ONLY, in their respective districts.

AT THE OLD DRURY.

The Wake of the Democracy.

Interesting and Impressive Ceremonies.

The Corpse is Carried Out, and the Mourners Go About the Streets.

That there may be much truth in the saying that it is better to attend a funeral than a wedding feast we do not pretend to question, but whether the saying applies with equal force to political funerals and "wakes" depends largely upon the political predilections of those who attend the same. At the Old Drury last night, for instance, the [illegible] appeared to be wholly absorbed by the Republicans, who, owing to the fact that we have but one regular theater at present, have been compelled to resort thither for such recreation and amusement as the Democracy have been able to afford the amusement loving public. The Old Drury affords unusual facilities for observing the Democracy "at home." (We may add that the greater portion of them did not feel quite at home there last night, many of them [illegible] at unusual early hours.)

We have attended these performances several times, and have remarked that the programme is invariably inverted, in other words, arranged in direct opposition to the custom adopted by experienced theatrical managers, who begin the performance with a tragedy, or a melodrama, ending with a comedy or a broad farce. The managers at the Old Drury, on the contrary, begin with a farce and end with heavy tragedy. The spectators who were in attendance last night will bear us out in the assertion that the old boards never furnished such a screaming farce as was presented when the curtain rung up last night. Concerning the closing, more anon.

Before the play began, we amused ourself in scanning the audience, and the alterations in the management of the stage. [illegible]

THE ELECTION.

How it was Conducted—Receiving the Returns—Scenes at City Hall—The Commercial Office—The Old Theater, &c.

The Presidential election of 1868, exciting as was the preliminary canvass, passed off very quietly (and we might even say pleasantly) in Allegheny county. The day was propitious, having been ushered in by a bright sun, which continued throughout the entire day. At the various election polls in this city and vicinity the voting began at an early hour, and was continued vigorously by the Republicans as the day progressed. Hourly counts were made in nearly all the wards and boroughs, and a largely increased Republican vote was foreshadowed. The best feeling prevailed among both parties, and very little disorder was manifested anywhere. Indeed, Republicans and Democrats seemed alike on their "good behavior," and we have no disturbance or collision of a serious nature to record. The voting continued thus orderly and quietly until the polls closed.

AT REPUBLICAN HEADQUARTERS.

City Hall was thrown open to the public at seven o'clock, and even at this early hour a large audience was ready to rush in. The hall was soon densely packed, and all awaited the returns with hopeful patience.

The Western Union and Atlantic and Pacific Telegraph Companies had their wires extended into the hall, as on the occasion of the October election, and the news was announced to the public as it came from the instrument.

The dispatches were received by Col. Russell Errett, Chairman of the County Committee, and announced by Col. John H. Stewart, the Secretary.

The first dispatch was received from Philadelphia, announcing that the Republicans had carried that city by a majority of over 5,000. This was hailed with vociferous applause.

The returns, or rather reported majorities, of several of the city wards were then received, all showing considerable Republican gains over the October vote.

When the returns from the second ward, Allegheny, were announced, they were hailed with thunders of applause, as were also those from numerous other districts, showing heavy gains.

[illegible]

brilliant pyrotechnic display was kept up at the Dispatch office. A number of Glee Clubs, after 12 o'clock, serenaded Mr. Brush, the newly elected Mayor, at his residence on Wylie street, and the speech he made in response was enthusiastically received.

A DEMOCRATIC OUTRAGE.

Party of Republicans Attacked by Copperhead Roughs—One of the Former Fatally Injured—Arrest and Committal to Jail of Four of the Assailants.

On Monday night a serious disturbance occurred in the second ward, Allegheny, resulting in the probable fatal injury of Mr. George Bothwell, a contractor, and a well known citizen of the ward. It appears that the Second Ward Grant and Colfax Club had attended a Republican meeting at Woods' Run in the evening, and after the meeting, by invitation, visited the residence of Captain Hugh S. Fleming, in McClure township. They returned to Allegheny a little before twelve o'clock, and went to the school house, where they disbanded. All of the members left for their homes, with the exception of four or five, who were standing with their capes and caps on in the school house yard, just inside of the railing, talking over the arrangements for the election yesterday. Among the party was Mr. George Bothwell, Mr. John B. McDonald, Mr. Jones, the janitor of the building, and his son. While engaged in conversation, a party of nearly a dozen Democrats, who had been attending a Democratic meeting in the Diamond, came along, hurrahing for Seymour and Blair, and upon noticing the other party in the yard applied some very insulting epithets to them, and offered to fight them. Mr. McDonald, noticing among the number one with whom he was acquainted, stepped outside the gate and requested them to pass along quietly. The words had scarcely left Mr. McDonald's lips when one of the assailants hurled a brick at him, just grazing his head. The whole party of Democrats then commenced an onslaught on those inside the gate, and a shower of missiles was hurled into them. When the first brick was thrown Mr. Bothwell was standing immediately behind Mr. McDonald, and the missile passing the latter struck Mr. Bothwell on the head, felling him to the ground and knocking him senseless. In the meantime the fight became general, and both parties were closely engaged, although the assailants were two to one. The noise attracted to the scene officers Cowell, Hemanns, and Hager, upon the approach of whom the Copperhead roughs fled. The officers took after them and succeeded in arresting two of them, named Jeremiah Hawkes and Michael Ryan, whom they took to the lockup. About two hours afterwards Lieutenant Fife arrested another of the assailants, named James Sullivan, at his home in the Second Ward. About nine o'clock yesterday morning another of the party [illegible] was arrested by officers [illegible]

The following States have gone for Seymour:

New York, [illegible] majority.
Maryland, [illegible] majority.
Delaware, [illegible] majority.
Kentucky, [illegible] majority.
Alabama, [illegible] majority.
Georgia, [illegible] majority.
Louisiana, [illegible] majority.

New Jersey and Arkansas are doubtful. There are few returns from the Southern States generally.

OHIO.

COLUMBUS, OHIO, November 4, 2 A. M.—The Republican majority will probably reach 30,000. One-third of the State is heard from, with a Republican gain of over 11,000.

Marion county—Democratic majority 400, Republican gain [illegible].

Clinton county—Grant 1,350 majority, Republican gain [illegible].

Fayette county—Grant 180 majority, Republican gain of [illegible].

Athens county—Six townships give a Republican gain of [illegible].

Greene county—Grant 2,830 majority, Republican gain of [illegible].

Fairfield county—Lancaster and eight townships give a Democratic majority of [illegible], Republican gain [illegible].

Hocking county—Republican gain 100.

COLUMBUS, November 3.—About one quarter of the State is heard from. The Republican gain is [illegible]. Grant's majority will be about [illegible].

INDIANA.

INDIANAPOLIS, November 3.—From the most careful estimates that can be made at this hour, the Republican majority in the State will be 10,000 to 12,000. In 130 towns heard from the Republican gain over State election is over two thousand. Evansville City complete, Grant's majority 276, a gain of [illegible]. [illegible]

EVANSVILLE, IND., November 3.—Vanderburg county shows a large Republican gain. Complete returns from all the precincts in the city show a Republican majority of 276, a Republican gain over Baker's vote of 192. Black township, Posey County shows a Republican gain of [illegible]. Gibson County, Johnson township, Democratic gain of [illegible]. Vanderburg County, three townships show a net Republican gain of [illegible]. Four townships in Gibson show 25 Republican gain.

CALIFORNIA.

SAN FRANCISCO, November 3d, 10 P. M.—Scattering returns from the interior show large Union gains. Sacramento county gives about one thousand majority for Grant; last year only six majority for Gorham. Stockton gives 225 Union majority, which is larger than the majority in the whole county last year. Nevada county gives Grant at least 400 majority; last year seventy-two for Gorham. Alameda gives Grant 400 majority, more than double Gorham's. Several localities which gave Democratic majorities last year now give Union majorities. The Democratic majority in some of the southern counties will show gains, but it is believed the Republican gains are sufficiently in excess to secure the electoral vote for Grant. In San Francisco all the wards show large Union gains, but the Democrats probably have a small majority. Their majority last year was nearly 4,000. A portion of the Union municipal ticket is certainly elected. The Union Congressmen in the two Northern districts are probably elected. A Democratic Congressman is probably elected in the Southern district. This would show a Union gain of one Congressman.

SAN FRANCISCO, November 3, Midnight.—The city has gone Democratic by about 1,500. Returns from the interior come in slowly, and indicate large Republican gains. The State is confidently claimed by the Republicans.

MARYLAND.

Six districts in Frederick county show 200 Republican gain.

Allegheny County—Seven districts indicate 250 majority, a Republican gain of 500.

Washington county shows 107 Democratic majority. Two districts are to hear from, which will leave Hamill but a small majority in the county. Harford gives Seymour 1,250 majority; Archer, Democrat, for Congress, 1,300 majority.

A Baltimore special dispatch says the Republican gain in the city is 3,000, and in the State the Democrats have about 20,000 majority, and elect all Congressmen. Weisel is defeated in the Fourth District.

FREDERICK, November 3.—Returns from eight districts show a Republican gain of 313. A gain of the same ratio in the other nine districts will give 100 Republican majority.

ARKANSAS.

The vote is close, and the result cannot be positively known for several days.

GEORGIA.

SAVANNAH, November 3.—The precincts in the country outside of the city show a Republican majority. The Isle of Hope precinct shows a Republican majority of 475. The total vote of the city is 6,963. The negroes of the city did not generally vote. The Democratic majority in the county is estimated at 800 to 1,000.

In the disturbance which occurred this morning only two negroes were killed. A large body of negroes assembled on the Ogeechee road, near the city, this evening. They were met by a body of police and ordered to disperse. They refused to do so, and trouble ensued, during which two negroes were killed.

AUGUSTA, GA., November 3.—The election progressed quietly up to three o'clock, when a row commenced between a white man and negro, which resulted in the death of Albert Ruffin, county Sheriff, and one negro. The excitement was intense, but through the influence of leading citizens and the co-operation of the military both parties dispersed quietly and order was restored. Each party accuses the other of being responsible for the origin of the difficulty. The city at this hour is very quiet, and no apprehension is felt of further trouble. No official returns have been received from any county in Georgia, but partial returns show increased Democratic gains. It is believed the State goes Democratic by at least 20,000 majority. Imperfect returns from seventeen counties on the line of railroad give 3,880 Democratic majority.

SAVANNAH, November 3.—Only one city box has been counted. The vote stands 126 Democratic, 158 Republican. Two city and county boxes are yet to be counted. The trouble on the Ogeechee road still continues. S. S. Law, son of Hon. Judge Law, one of the special police, was killed this evening, about a mile from the city. There is great excitement among the citizens. The city is patroled by armed men.

NEW JERSEY.

Newton township gives Seymour 247 majority; Randolph 261 majority; Baird, for Congress, 279. Atlantic county gives 500 majority for Grant and John I. Blair. Salem gives 350 majority for Grant and John I. Blair. Union township gives Seymour 75, Randolph 79, Baird 78, Haugh 21 majority. Cumberland county gives a Republican majority of 1,300 for the whole ticket.

Atlantic City elects the whole Republican ticket by 63 majority. Newark gives Grant 761 majority; Blair, Republican candidate for Governor, 669; Halsey, Republican, for Congress, 1,198; Teed, Republican, for Sheriff, 531.

Mercer county about 300 Democratic majority.

Essex county gives Grant about 1,500, Blair 1,200, Hill, Congress, 600. The township of Egg Harbor gives Grant 66 majority, Blair, Governor, 60, Moore, Congress, 85.

Cumberland gives Grant 1,300 majority, and elects the whole Republican ticket. Shepard, Republican, is elected to the Assembly in the First District by 231 majority, Republican gain of 328. Atlantic county gives Grant 500 majority. Mercer county has a Democratic majority, electing a Senator and one Representative of the county. The State looks Democratic. Haight, in the Second District is probably elected. Bird, Democratic, in the Third District, and Cleveland, Democrat, in the Fifth are elected.

NORTH CAROLINA.

RALEIGH, N. C., November 3.—The city has gone largely Republican. In the First Congressional District the Conservative is elected.

RALEIGH, November 3.—Twenty precincts show a Republican majority of 1,074.

WILMINGTON, November 3.—A more quiet election was never witnessed. The vote in this city was: Grant 2,304, Seymour 1,197; Republican gain 242. The Democratic majority in Wayne county is 622, Democratic gain 315. The Democratic majority in Columbus county shows a gain of 100. The *Morning Star* estimates the Republican majority in New Hanover county at 1,600, being a gain of 265. Later returns from Columbus county give the following result: Whiteville precinct, Democratic 216, Republican 129; Democratic gain 89. Williams precinct up to two o'clock P. M., Democratic 125, Republican none. Returns from the Congressional elections are meager, but the First, Second, Third, Fourth and Fifth Districts are conceded to the Radicals. The returns are not sufficient to warrant any definite estimate, but the indications are the vote will be close in the State, with the chances in favor of the Republicans.

MASSACHUSETTS.

NEW YORK, November 3.—Dispatches from Boston show that Grant has made very heavy gains thus far. Private telegrams from General Butler's district state that, judging from the voting thus far, he will be elected by a large majority.

BOSTON, November 3.—All over this State Grant has made heavy gains over the Republican vote of last year, and his majority will probably be in the neighborhood of 75,000. Every city gives a large Republican majority. Boston gives between 3,000 and 4,000; Chelsea 1,150; New Bedford 1,800; Cambridge about 1,000, and Charleston 700 or 800.

Hooper, Republican for Congress, has over 2,500 majority. Twitchell, Republican in the Third District, has about 2,000 majority. In the Fifth District Gen. Butler has a large majority in every city and town heard from, and his total majority must largely exceed that of last election. Banks and Boutwell are elected by very large majorities. The vote for Adams for Governor shows a heavy decrease from last year.

Lowell gives Grant 1,569 majority; Fall River 200; Haverhill 900; Newton, the home of Claflin, 800; Quincy, the home of Adams, 100 majority for Grant; Gloucester 900. The vote of Boston is, Grant 15,271, Seymour 12,071. Claflin's majority in Boston for Governor is 2,322. Butler has a majority over all of 6,240.

BOSTON, 11 P. M.—One hundred and ninety-three towns give Grant 105,243, Seymour 53,165; Grant's majority 52,078.

MICHIGAN.

DETROIT, November 3.—Michigan will give Grant 30,000. The delegation in Congress will be unanimously Republican. In the First District Beaman's majority is very much reduced, but will probably be a thousand. The majority in the Sixth District is also much reduced. Ferry, Stoughton and Blair have very large majorities. The Legislature will be about three-fourths Republican.

DETROIT, 3 A. M., November 4.—In Wayne county Mills has 1,647 majority with the Fifth, Sixth, Seventh and Ninth wards of Detroit to hear from. These figures indicate Beaman's election by about 1,400 majority. The State, as far as heard from, gives Grant 27,000 majority.

MASSACHUSETTS.

Returns from two hundred towns give Grant 107,547, Seymour 53,589. Last year the same towns gave Bullock, governor, 78,104, and Adams 53,089; Republican gain 28,000, an estimated Republican majority of 60,000. The Republicans elect all their Congressmen, nearly all their State Senators, and three-fourths of the House.

CONNECTICUT.

HARTFORD, November 4.—The full vote of Connecticut is: Grant 47,781, Seymour, 44,366; Grant's majority 3,415.

HARTFORD, November 3, P. M.—The *Evening Post* has just issued an extra, giving returns from every town in the State, and showing a Republican majority of 3,498, a gain of 5,026 over last spring.

SOUTH CAROLINA.

CHARLESTON, November 3.—The election was one of the quietest ever known here. Partial returns indicate that the Republicans have carried the State by a reduced majority. The State is conceded for Grant, but the Democrats claim two out of four Congressmen.

RHODE ISLAND.

PROVIDENCE, November 3.—Jenckes, for Congress in the First District, has 3,841 majority; Dixon in the Second District, has 1,434 majority, with one town to hear from, which will not change the result. The *Journal* has Rhode Island complete except Block Island; Grant 12,882, Seymour 6,485; Grant's majority 6,397. Providence city, Grant 4,173, Seymour 1,790.

MINNESOTA.

CHICAGO, November 3.—Returns from Minnesota are meagre. The Republicans claim the State by 7,000 majority. Wilson, Democrat, is reported elected over Donnelly and Andrews. Negro suffrage is adopted by two to three thousand majority.

IOWA.

CHICAGO, 2 A. M., November 4.—The Chairman of the Iowa Republican State Committee says the returns now indicate a Republican majority of over 50,000. Negro suffrage is adopted by a large majority. Every Congressional District is carried by a large majority.

LOUISIANA.

NEW YORK, November 3.—The *Post* says: A private dispatch from New Orleans this morning assures us the Democrats have exclusive possession of the polls, and that the Republicans are not attempting to vote.

NEW ORLEANS, November 3.—The city gives 25,000 Democratic majority. The vote of the State is largely Democratic. But few Republican votes were cast.

ARKANSAS.

MEMPHIS, November 3.—Returns from Arkansas are meagre, owing to the few telegraph offices. Pine Bluff, Grant, 342, Seymour 105. Augusta, Seymour's majority 291. Duvall's Bluff, Grant 112, Seymour 35, Helena Township gives Grant 1,250 majority. Baleville, Seymour 17 majority. Jacksonport, Seymour 167 majority. Des Arc, Grant 28, Seymour 74.

DELAWARE.

New Castle county gives 209 Democratic majority for President, 213 Democratic majority for Congressman. Red Lion 100, New Castle 60, and Pencader 179 Democratic majority.

Wilmington—Full figures of four precincts in Wilmington and of two outside give a Democratic gain of 184 over the vote of 1866. Wilmington city gives a small Republican majority, but all the counties in the State have gone Democratic, making the Legislature unanimously of that party.

ALABAMA.

MOBILE, ALA., November 3.—Seymour's majority in this city is 991. Whistler gives Seymour 273 majority. No other points in the county are heard from. Everything passed perfectly quiet.

WISCONSIN.

CHICAGO, November 3.—Returns from Wisconsin are scattering, but indicate a Republican majority of 10,000 to 12,000.

KENTUCKY.

The Republicans claim an increase of 12,000 for Grant over Baker's vote in August.

TENNESSEE.

NASHVILLE, November 3.—The Chairman of the State Republican Committee claims the State by 50,000. The Democrats concede 10,000 or 20,000.

NEVADA.

The State of Nevada is claimed for Grant.

OREGON.

Oregon shows large Union gains, and it is thought Grant will have a small majority.

MAINE.

Eighty-six towns give Grant 37,705, Seymour 17,771; Grant's majority in the State about 27,000.

VERMONT.

Grant's majority will reach 37,000 in Vermont.

INDIAN SUMMER.—According to the Almanac Indian summer commenced yesterday, and will last until the 11th inst. "Squaw" winter follows.

THE CHIEF OF POLICE.—The name of William J. White is mentioned in connection with the office of Chief of Police under Mayor Brush's administration.

AN ELECTION BET.—Two well known gentlemen made a bet on Fifth avenue yesterday morning of five hundred dollars to the effect that Grant and Colfax would have a larger majority in the State of Pennsylvania than Seymour and Blair would have in the State of New York.

MUDLARK OUTRAGE.—While the Second Ward Glee Club was returning from the serenade to Mayor Brush, about one o'clock this morning, they were attacked in the vicinity of Washington street, by a number of mudlarks, and some half a dozen pistol shots were fired. Fortunately no one was seriously injured, although it is rumored that one of the members of the club was shot in the neck.

The Great Medical Mistake

Of former days was an utter neglect of sanitary precautions. No efficient means were adopted for the prevention of sickness. Sewerage was unknown in cities; drainage was rarely attempted in the country. Heaps of offal were left to rot in the public streets, and domestic cleanlines, the great antidote to febrile diseases, was sadly neglected. It is not so now. Wise laws, philanthropic institutions, and a vigilant sanitary police, have, to a great extent, remedied the evil. Nor is this all. PREVENTIVE MEDICATION has helped materially to lesson the rate of mortality. It is not too much to say that TENS OF THOUSANDS escape sickness in unhealthy seasons in consequence of having INVIGORATED THEIR SYSTEMS IN ADVANCE by a course of HOSTETTER'S STOMACH BITTERS. This pure and powerful vegeteble tonic and alterative comprises the extracts and essences of a variety of roots and herbs, renowned for their strengthening, soothing, vitalizing and purifying properties. These medicinal agents are incorporated with a spirit absolutely free from the acrid poison which defiles, more or less, all the liquors of commerce, and their effect is diffused through the whole frame by this active, yet harmless stimulant. The result is such a condition of the system as renders it *all but impervious* to the exterior causes of the disease, such as damp, fog, sudden alterations of temperature, &c. Strength, and the perfect regularity of all the functions of the body, are the best safeguards against atmospheric poison and the effects of unwholesome water, and HOSTETTER'S BITTERS are the best strengthening and regulating medicine at present known. For dyspepsia and biliousness they are a SPECIFIC ABSOLUTE.

Important Announcement.

Benjamin Mishler, in a card published in the Lancaster (Pa.) *Express*, noticing an imitation of Mishler's Herb Bitters, made by his son, Henry L. Mishler, says: "I, therefore, publicly declare that Henry L. Mishler does not know anything of the method of manufacturing MISHLER'S HERB BITTERS; that the preparation made by him is a base counterfeit imitation, and that when Henry L. Mishler, or his agents, represent their mixture to be Mishler's Herb Bitters, they are IMPOSTERS, and I trust that Dr. S. B. Hartman & Co. (my successors,) will prosecute them, assuring the community that no effort shall be spared on my part to bring the offenders to justice. Observe that the bottle offered for sale bears Stoekel's Patent Graduated Scale of Doses blown in the glass, and has an Internal Revenue Stamp, with engraved likeness of Benj. Mishler over the cork. None other is genuine. For sale by all druggists and storekeepers. Dr. S. B. Hartman & Co., sole proprietors, Lancaster, Pa., and No. 26 Market street, Pittsburgh, Pa. MWS

Specific No. Seven Cures

COUGHS, COLDS, BRONCHITIS, SORE THROATS.

These are so common, and so frequently lay the foundaton of incurable disease, that a curative for them is required in every family. Almost every case of consumption began with a slight or common cold, and for quite a period might easily have been cured by these simple Cough Pills.

Common Colds require only the Cough Pills, taken three or four times per day. But if there is pain in the breast or sides, soreness of the throat, or hoarseness or feverishness, it is better to take the Fever Pills alternately with them. In all cases where a cough or cold does not get well at once with the Cough Pills alone, the use of the Fever Pills with them will promptly cure.

Chronic Cough of some standing, with danger of falling into consumption requires the Cough and Fever Pills with good diet and daily use of stimulus, and this treatment has cured hundreds of cases.

Bronchitis, with sore throat, cough, hoarseness or fever, is cured by the Fever Pills and Croup Pills alternately. Scores of cases are thus cured and are promptly benefitted.

Hoarseness promptly yields to No. One and No. Seven.

Clergymen or Public Speakers, after using the voice, are at once relieved of the irritation, dryness and "huskiness," by taking the Cough or Fever Pills, and the throat and voice are thus preserved. Many clergymen thus use them, with the greatest satisfaction.

The Influenza requires only the Cough and Fever Pills for a prompt cure. But, in severe cases, the Catarrh Pills may act more decidedly, especially if there is flowing catarrh, sore nose and general prostration.

These remedies by the case or single box, are sent to any part of the country by Mail or Express, free of charge, on receipt of the price. Address Humphrey's Specific Homeopathic Medicine Co., Office and Depot, 562 Broadway, New York.
